Employment History

Architect, Ankrom Moisan Architects

Seattle, Washington

June 2018-April 2020

- Led construction administration effort for the Student Success Center, a new 70K SF and \$35M higher education project on the Bellevue College campus.
- Served as project architect on the team that won the \$38M project to renovate WSDOT's 170K square foot Northwest Regional Headquarters in Shoreline and significantly redesign the 14-acre site.

Architect, Self-Employed Contractor

Alderwood Manor, Washington

August 2017 - Present

- As a member of Starbucks' Operations Engineering and Innovation team I developed new casework designs using Revit and created operational documentation in support of deploying new café products.
- Provide support to clients in the design and production of plans, sections, and elevations for permitting and construction using Revit, AutoCAD, and SketchUp.

Founder and General Manager, Toolbox Ware

Port Townsend, Washington

July 2014 - September 2014

- Led the effort to build a software startup in partnership with Steel Draft's leadership and funding to create products to improve the efficiency of steel detailing work with AutoCAD.

Design Technology Specialist, SERA Architects

Portland, Oregon

October 2012 – October 2013

- Individual project delivery responsibility for a new project type of point cloud capture and production including quantitative financial analysis of viability.
- Resolved a problem with usability of existing laser scans for the remodel of the Erb Memorial Building, a 100,000+ SF facility, using verbal communication skills and good judgment.

Architectural Designer, Tetra Tech / WJA Design Collaborative

Seattle, Washington

April 2007 – January 2010

- Designed and produced drawings for a glass and steel stair supporting company image.
- Managed project risks and variances during construction administration on a 40,000 SF lodging facility at Mountain Home AFB.

Architectural Designer, Starbucks Coffee Company

Seattle, Washington

February 2005 – April 2007

- Produced project documentation and plans for 50-60 new coffee shops in support of Starbucks' growth.
- Authored LEED Daylighting credit documentation for the Free-Standing Building prototype.

Apprentice Architect, Gordon Fleener Architects

Seattle, Washington

March 2004 – November 2004

- Participated in three residential and four commercial projects while learning how to produce architectural drawings.
- Facilitated transition to a digital production workflow in AutoCAD from pencil-drafted drawings.

Carpenter, W.S. Feldt General Contractor

Seattle, Washington

November 2002 – June 2003

- Designed and built mantelpieces and casework to meet client requests and best practices.
- Installed and painted materials in support of five residential construction projects.

Web Developer, JEC Technology Consulting

Seattle, Washington

November 2001 – November 2002

- Designed, developed and maintained a web site for Delicious Planet, a healthy food service.

Web Developer, Amazon.com

Seattle, Washington

June 2000 – November 2001

- Delivered and supported the shopping experience on Palm Pilots, WebTV, and WAP cellphones.
- Wrote code and content for the Search and Browse pages on the Amazon.com site.

Web Developer and Help Desk Manager, Information Systems Support

Honolulu, Hawaii

February 1999 – April 2000

- Delivered help desk services to users of a new digital patient record system commissioned by the DOD.

AutoCAD Developer, Steel Draft Company

Woodland, California

July 1998 – January 1999

- Created customizations to AutoCAD via AutoLISP and VBA that have been used for over 20 years.
